ai2 Artist-in-Residence Program Rights

All property rights and any other rights remain in the hands of the artist.

The ai2 Artistic Residency Program, as well as the institutions involved (Universitat Politècnica de València and the Synthetic Biology and Biosystems Control Lab of the Automatics and Industrial Informatics Research Institute ai2), wish the results of this call to be accessible to the public, whatever the means of dissemination. They are also authorized to use the results for their own non-commercial purposes. All documentation and promotional material will be used solely in connection with the ai2 Artistic Residency.

The institutions involved in the ai2 Artistic Residency Program reserve the right to determine the scope, timing and composition/editing of publications and/or documentaries related to the results of the call, but no obligation to produce such publications and/or documentaries can be imputed to them.

Regarding the on-line dissemination of the results of the call in the art repositories of the institutions involved in the program, they reserve the non-exclusive, irrevocable and royalty-free right, regardless of time and place. In case of publication, they undertake to include in all cases the name of the author, the title of the work and its link to the ai2 Artistic Residency Program.

The participant declares that he/she is legally authorized to assign such rights as stipulated above, that he/she has obtained all necessary consents from third parties as required by regulations governing copyright, personal property rights or other such legal provisions, and that he/she is willing to provide proof thereof at any time if requested to do so by the ai2 Artistic Residency Program.

The participant will not take any action (especially the transfer of rights to third parties) that may affect the rights granted to the ai2 Artistic Residency Program. I have read the information about the rights of the ai2 Artistic Residency Program and the conditions of submission and agree to it.
